

Branch: aiml

Subject: machine learning

## SUMMARY:

---

Artificial Intelligence is the simulation of human intelligence by machines. Machine learning is a subset of AI.

## QUESTIONS:

---

Q1. Explain: Artificial Intelligence is the simulation of human intelligence by machines.?

Q2. Explain: Machine learning is a subset of AI.?

Q3. Explain: Deep learning uses neural networks.?

Q4. Explain: AI is used in healthcare and education.?

Q5. Explain: It improves automation.?
